

UPDATE Michigan Aviation Safety Forum Filling the Void

The Michigan Aviation Safety Forum was started out of a need to fill a void of high-quality aviation safety education and other cool stuff in South East Michigan. The Forum reaches pilots and aircraft maintenance technicians of all ages and experience levels to provide valuable safety information and training. The eight hours of training will meet the current year's Bill O'Brien AMT Awards program, annual IA renewal requirements, and the Wings Pilot Proficiency Program.

Directions: Refer to the EMU Student Center web site for specific directions, maps and layout. The Forum Classes will be in Rooms 310A and 310B.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
